

# **GREEN PASTURES CHRISTIAN SCHOOL**

---

## **Disciplinary Declaration**

Green Pastures Christian School is committed to providing a climate that is productive and spiritually enriching. For that reason, the matter of self-control and adhering to the disciplinary rules outlined by the school are extremely important. Each student enrolling in Green Pastures Christian School will be required to follow school rules, without exception.

Continued enrollment in Green Pastures is contingent upon acceptable behavior, strict observance of the uniform dress code, regular attendance (without excessive tardiness), and respect of school personnel and school property. If at any point a student is involved in behavior that does not meet the standards set by the school, Green Pastures Christian School reserves the right to deny continued enrollment to the student.

Green Pastures shall not be obligated to extend special consideration or hold repeated conferences for students who are found in repeated violation of school rules or uniform infractions. Any student who disrupts regular instruction by having to be sent to the office seriously jeopardizes his/her enrollment at the school. Parents are hereby notified of the possibility of suspension or expulsion from Green Pastures Christian School.

We find this declaration necessary since we offer all parents and their children a school environment that operates smoothly with as little interruption as possible. Students, who refuse to comply, unfairly burden school personnel with additional meetings, justifications and conferences. These hours are precious and needed for regular instruction and planning.

It is extremely important that every parent shall share responsibility for the actions of their child by reinforcing the rules as outlined in the school handbook.

**I have read the above statement and declaration of Green Pastures of its right to dismiss my child from the school for violation of the outlined rules of the school. It is my understanding that if my child fails to follow these rules, that denied enrollment is a possibility, without challenge. In such case, all enrollment fees, registration and tuition through the end of the school year in question shall be non-refundable.**
